

SAMHSA works with federal partners, states, and community stakeholders to develop and coordinate a comprehensive response to the opioid epidemic. SAMHSA addresses opioid use and misuse through approaches such as informing and guiding opioid prescribing practices, the expansion of medication-assisted treatment (MAT), and individual-provider decision making tools.

INDIVIDUAL AND COMMUNITY RESOURCES

Decisions in Recovery: Treatment for Opioid Use Disorder

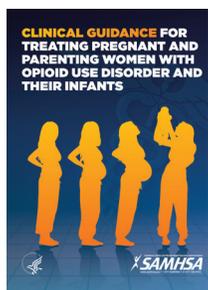

Decisions in Recovery: Treatment for Opioid Use Disorder (OUD), SAMHSA's new shared-decision making tool, allows individuals, together with a health care provider, to learn about using MAT options to strengthen their recovery. For more information, visit Decisions in Recovery at bit.ly/DecisionsInRecovery

Opioid Overdose Prevention Toolkit

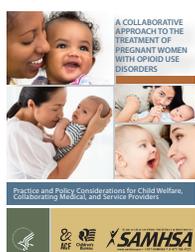

This publication equips health care providers, individuals, communities, and local governments on ways to prevent and respond to opioid overdose. It addresses issues for first responders, treatment providers, and those recovering from opioid overdose. Learn more at: store.samhsa.gov/product/Opioid-Overdose-Prevention-Toolkit-Updated-2016/SMA16-4742

Clinical Guidance for Treating Pregnant and Parenting Women with Opioid Use Disorder and Their Infants

This Clinical Guide provides comprehensive, national guidance for optimal management of pregnant and parenting women with OUD and their infants. The Clinical Guide helps health care professionals and patients determine the most clinically appropriate action for a particular situation and informs individualized treatment decisions. store.samhsa.gov/product/Clinical-Guidance-for-Treating-Pregnant-and-Parenting-Women-With-Opioid-Use-Disorder-and-Their-Infants/SMA18-5054

A Collaborative Approach to the Treatment of Pregnant Women with Opioid Use Disorders

This manual offers best practices to states, tribes, and local communities on collaborative treatment approaches for pregnant women living with opioid use disorders, and the risks and benefits associated with MAT. Get your free copy at store.samhsa.gov/product/A-Collaborative-Approach-to-the-Treatment-of-Pregnant-Women-with-Opioid-Use-Disorders/SMA16-4978

FIND HELP

These resources can be used to find specialty treatment for substance use disorders in your community.

Find alcohol and drug abuse treatment or mental health treatment facilities and programs. findtreatment.samhsa.gov

Find physicians authorized to treat opioid dependency. samhsa.gov/medication-assisted-treatment/physician-program-data/treatment-physician-locator

Find treatment programs in your state for addiction and dependence on opioids. dpt2.samhsa.gov/treatment

Get treatment referrals and other information at this free, confidential helpline, available 24/7, 365 days a year
1-800-662-HELP (4357)
TTY: 1-800-487-4889
samhsa.gov/find-help/national-helpline

PRACTITIONER RESOURCES

SAMHSA resources help practitioners be better prepared to identify a need for, and connect patients to, appropriate opioid use disorder treatment.

Screening, Brief Intervention, and Referral to Treatment (SBIRT)

SAMHSA develops technical assistance manuals and resources to support the adoption of SBIRT. Learn more at samhsa.gov/sbirt. You can also find the SBIRT technical assistance report at store.samhsa.gov/product/TAP-33-SystemsLevel-Implementation-of-Screening-Brief-Intervention-and-Referral-to-Treatment-SBIRT-/SMA13-4741

Medication-Assisted Treatment Courses

SAMHSA provides continuing medical education (CME) courses on prescribing opioids for chronic pain and MAT. Most of the courses also include resources that address practice management, legal and regulatory issues, opioid pharmacology, and patient care strategies. Learn more at: samhsa.gov/medication-assisted-treatment/training-resources/opioid-courses

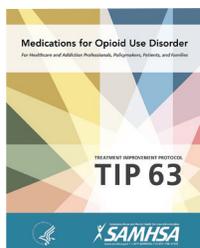

Providers' Clinical Support System (PCSS)

PCSS is a national training and mentoring project. Training includes resources that physicians can use to get Continuing Medical Education/Continuing Education related to proper opioid prescribing and providing MAT. Learn more at: pcss-o.org for effective treatment of opioid use disorder and chronic pain; and, pcssmat.org for MAT.

Pocket Guide

Offers guidelines for physicians using MAT for patients with opioid use disorder. Discusses the various types of approved medications, screening and assessment tools, and best practices for patient care. Download your copy today: bit.ly/MATforOpioids

Medications for Opioid Use Disorder

This Treatment Improvement Protocol (TIP) reviews the use of the three Food and Drug Administration (FDA)-approved medications used to treat opioid use disorder—methadone, naltrexone, and buprenorphine—and the other strategies and services needed to support recovery for people with OUD. store.samhsa.gov/product/TIP-63-Medications-for-Opioid-Use-Disorders-Full-Document-Including-Executive-Summary-and-Parts-1-5-/SMA18-5063FULLDOC

MATx Mobile App

MATx empowers health care practitioners to provide effective, evidence-based care for opioid use disorders. MATx includes a step-by-step guide for practitioners to become certified to prescribe buprenorphine, information on medications for opioid use disorders, including buprenorphine, methadone, naltrexone, and naloxone for opioid overdose prevention, clinical support tools, such as treatment guidelines, and ICD-10 coding, and access to critical helplines and SAMHSA's treatment locators. Download the app today: bit.ly/MATxOpioids
